

Download Mitutoyo Sj 400 User Manual

MITUTOYO SURFTEST SJ-301 SERIES A portable surface roughness tester with a touch-panel LCD and a built in printer. Unbeatable portable surface roughness tester created for ease-of use and as a cost-effective solution to a wide variety of measuring needs. Calipers are the universal measuring tool thanks in part to their versatility. Most calipers 12"/300mm and under can perform OD, ID and step measurements and normally have a depth rod for measuring deep recesses. Mahr S2 Perthometer skidded or skidless surface finish instrument to measure surface roughness has 40 parameters. MANUAL SECTION. The (IND#X) is an inventory control number; I do not sell my originals, if you can use a clean copy or need a couple/few pages of scanned info I can assist you - THIS IS NOT A FREE SERVICE AS MANY SEEM TO THINK!!
