FAO Yearbook. Fishery and Aquaculture Statistics 2016 Click here to navigate the USB Card FAO yearbook. Fishery and aquaculture statistics : 2018 : FAO Yearbook. Fishery and Aquaculture Statistics. 2015In 2003 the Aquaculture Section implemented its 2003 Work Program on seaweed and to date, two communities have benefited from the project, the Rarumana community (population of more than 2 000) was the first followed by the Waghena community (population of more than 3 000).Agriculture and Food Supply Data. See also the resources on my companion page for the ISA Compendium's "Review of Available Data Sets" article, which may have been updated more recently than some of the resources on this page.. My Environmental Topics and International Organizations pages may also provide relevant information or data. See also the section on resource scarcity, below.Seasons and geography. Agriculture in Madagascar is heavily influenced by the island's rainfall, which is generally abundant on the whole East coast, decreases sharply on the highlands, and falls to less than 500 mm per year in the South and South-West.
